2016 UWMC SUMMER YOUTH PROGRAMS

SCHOLARSHIPS are available for our summer youth programs. Form is inside the back cover.

This is not a school district-sponsored activity. The opinions expressed are not necessarily those of the district or its personnel.

Dear Parents

As you explore plans with your children for the summer of 2016, we hope you will consider the many offerings we have here at the University of Wisconsin – Marathon County for discovery, imagination and fun while learning!

All of our classes are taught by highly trained and talented instructors from the university and area school districts. Our programs are for children seeking fun and adventurous learning opportunities, and our engaging classes are designed to stimulate curiosity, encourage creativity, instill confidence, and develop problem-solving and critical thinking skills—while having a great time!

NEW THIS SUMMER: We have two new exciting programs to add to the summer mix. During the same time as ***College for Kids,*** students who are 8 – 14 years old can participate in ***Camp Imagination*** where they can make their own mobile apps, design their own Minecraft characters and bring them to life, combine LEGOs and video games, or customize their wardrobe and create a design inspired by nature. Our other new program is ***Girl Power Camp: DIY.*** This program is a full-day, week-long experience for girls between the ages of 8 and 13. The focus this year is on "doing it yourself" in which girls will be introduced to activities involving needlecraft, science, music, and the outdoors. In July, the ***Wizarding Academy*** returns for another year. Harry Potter fans will gather again for a fun, interactive adventure.

Financial need scholarships are available for all of our summer youth programs. Use the form on the inside of the back cover to apply.

TO REGISTER FOR ANY OF THESE PROGRAMS, use the common form in the center of this book or go online at: https://ce.uwc.edu/wausau/catalog and click on the appropriate icon.

Registrations will open on April 11, 2016 and will remain open until courses are full or a week before they begin. You can mix and match the program that best suits your needs. The deadline for ordering College for Kids **T-shirts is Friday, May 6.**

Sincerely,

Vickie Richmond Hawkins

S.T.E.M. classes brought to you by UWMC Continuing Education in collaboration with Black Rocket Productions, LLC. Black Rocket has over a decade of experience designing camps in S.T.E.M. and digital arts fields. Every program is powered by the child's imagination and designed to bring their ideas to life in a fun, hands-on learning environment. All Black Rocket programs mirror real life experiences and the collaborative nature of the design process. Students are encouraged to work in pairs or teams for most of the camp.

Check out this new program!

CAMP IMAGINATION

FEE: $149 per class until April 30
$159 after May 1

SESSION ONE — JUNE 13 – 17

9 AM – NOON — AGES 8 – 10

Minecraft Animators® — Doug Beck
Bring your favorite Minecraft characters to life in an animated short film! Learn how studios like Pixar and Disney make movies like *Inside Out* and *Frozen* by using techniques like keyframing, tweening, texturing, and animating rigged 3D models! Student projects will be available on a Black Rocket website to share with friends and family. You do not need to own a Minecraft account to use the software in this class. Students will work in pairs or teams for most of the program.

Silkscreen Clothing Production — Diana Budde
Customize your wardrobe and create a design inspired by your imagination for production printing. Eight to ten year olds will work on Adobe Photoshop to create their designs, transfer the design to a silkscreen and then screen print the design onto a provided t-shirt. Bring in a pillow case, bandana, or other textiles for additional printing. The camp will provide one T-shirt; please include your t-shirt size.

SESSION TWO — JUNE 13 – 17

1 – 4 PM — AGES 11 - 14

Minecraft Animators® — Doug Beck
See description above.

App Attack!® — Brad Schmicker
Take the first steps into the world of mobile app design and customize your own game app! Using a specialized app & game development tool, students will explore the world of web-based (HTML5) mobile apps. In addition to learning the basics of mobile app design and game development, you will also see firsthand how the world of App publishing functions. Student-created apps will be accessible on a private site and can be played on any mobile device or computer. Publishing to App Stores not included. No prior experience is necessary and students do not need to own a smartphone or tablet to take the class. Students will work in pairs or teams for most of the program.

SESSION THREE — JUNE 20 - 24

9 AM – NOON — AGES 8 – 10

LEGO Video Games® — Brad Schmicker
Combine your two favorite activities: LEGOs and Video Games! Students will create their own LEGO characters and adventures in an interactive 2D Video Game. Everyone is welcome in this one-of-a-kind class. At the end of the program, every student will have a finished LEGO Video Game that can be shared with friends and family through a password-protected Black Rocket website. Games are only compatible on PC computers; Mac versions can be created after the program for a $15.00 conversion fee. Students will work in pairs or teams for most of the program.

Silkscreen Clothing Production — Diana Budde
See description above.

Minecraft Designers® — Doug Beck
If you love the game Minecraft, but always wanted to design your own characters and buildings for your games, this class is for you! Learn the basics of creating 3D models using new software to design your very own objects, create skins for characters, and import them into your favorite Minecraft games. To access their project at home, students must own a PC/MAC version of Minecraft. Tablet, phone, and game console versions of Minecraft are not compatible. Parent's email address is required to use 3D modeling software. Students will work in pairs or teams for most of the program.

SESSION FOUR — JUNE 20 - 24

1 – 4 PM — AGES 11 - 14
