WEEK #1 – WOOOHOOO! SCHOOL'S OUT!

Let's make new friends and begin summer holidays with some summer fun! We'll have outdoor picnics, sidewalk chalk art, crafts, games, homemade bubbles, and go on a summery field trip. Join us!
* Please note: Camp will be closed July 1st for Canada Day.

Course ID: SA 0027

Mon & Wed-Fri, Jun 30 & July 2-4 (No class Tue, Jul 1), 8:00am-4:30pm

WEEK #2 – FEAR FACTOR

This week's experiences may be gross—but they should be fun! Slimy things! Goopy things! Also, trust walks and safe blindfold games make it challenging and exciting! You can even test the camp leaders-how brave are they? Come and try them all!

Course ID: SA 0009

Mon-Fri, July 7-11, 8:00am-4:30pm

WEEK #3 – PIRATES OF THE COULEES

Ahoy there! Arrrr you ready? Join us for pirate games, crafts, and activities. You'll learn what pirates ate and why maggots were often seen on pirate ships! Were there female pirates in days of old? All of this, plus playing at nearby Kin Coulee Park! Come aboard me buckos!

Course ID: SA 0002

Mon-Fri, July 14-18, 8:00am-4:30pm

WEEK #4 – STAMPEDE WEEK!

This week we celebrate our city's Exhibition & Stampede! Enjoy fun times like visiting Pioneer Village on the grounds and a taking a trip to Growing Minds-Neubauer Farms just outside of Medicine Hat. We'll eat a delicious pancake breakfast and do activities, crafts, and games that are all about this week's celebration. A real stompin' good time!

Course ID: SA 0014

Mon-Fri, July 21-25, 8:00am-4:30pm

WEEK #5 – GET READY! GET SET! GET WET!

Yes, this is water week! Water games and fun galore-doing the limbo under the hose, batting water balloons, and more! Can you suggest water games to share that you've had fun with before? Oh! Did we mention the water parks? This week should be "buckets of fun!"

Course ID: SA 0030

Mon-Fri, July 28-Aug 1, 8:00am-4:30pm

WEEK #6 – JUNIOR CAMP CHEFS

Shhh... the ingredients are secret! With your team of junior chefs, you'll open a mystery basket of foods. What can you create for us to eat with the mystery foods inside? Also this week, we'll visit a local eatery and create something visual to share what we saw there. Oh! A frozen treat? We'll make that, too!

Course ID: SA 0028

Tue-Fri, Aug 5-8, 8:00am-4:30pm

WEEK #7 – NATURE NUTS

There's a lot of nature in our prairie land! Walking, exploring under rocks, visiting natural habitats, and more! In between our explorations, we'll do nature crafts and activities. Come and get some fresh air and exercise!

Course ID: SA 0005

Mon-Fri, Aug 11-15, 8:00am-4:30pm

WEEK #8 – MAD SCIENCE

A week of fun science experiments! You may not realize it, but science is right under your nose every day! We'll test things, try things, and compare things to see what the results are. If you have a safe & interesting experiment to share, we can show the rest of the group! Science is so exciting!

Course ID: SA 0029

Mon-Fri, Aug 18-22, 8:00am-4:30pm

WEEK #9 – THAT'S A WRAP

We'll have a sharing circle to find out what we liked most about our summer, what we look forward to about school (there has to be something!), and what school everyone is going to. We'll wrap up our summer camp with friends new and old, playing music and games, going to parks, having a cool treat, and more! So, put on your smiles and come and join us-the more the merrier!

Shakespeare Comes to Calamity Creek

Book by Tim Kelly; Music and Lyrics by Bill Francoeur

Ah, Shakespeare in the...Old West?! Noble Hart, a conceited actor, arrives in the small mining town of Calamity Creek determined to bring culture to the locals. His troupe of actors is enough to make a playwright cry. The one exception is the lovely Sunny Day. She falls for Texas Ranger Johnny Lasso, who's hot on the trail of a notorious crook masquerading under the name of Gentleman Dan, whose true identity is unknown. It's almost as if he was a master of disguise, like... an actor, perhaps? The troupe's arrival thrills the townspeople, except Abigail Pettigrew, the richest person in town. She's harboring a dark secret about her former occupation. Some stranded dancers, a few would-be outlaws and striking gold miners, and you've just set the stage for a wild musical bonanza!

Instructors:

Deborah Deans, ARCT in Speech and Drama. Local private speech arts instructor, director and actress, with many years of experience in community theatre, especially for children.

Allison Kapcala, ARCT in Music. Local private piano instructor, experienced in musical theatre and productions for children.

JUNK BOX WARS **NEW**

Ages 9-12. What can you create with a box of "junk"? Do you think you can create a device that will launch a bouncy ball at a target to earn points? We are challenging you to use your imagination, problem solving skills, creativity and a box of "junk" to create a variety of contraptions that perform an assortment of tasks. Working within a team, each day will begin a new challenge and before the day is over, we will test out each contraption to see how they measure up. If you think you are up to the task, we want to see you in this camp!

INTRO TO TRADES

Ages 13-17. Are you interested in the Trades, or maybe you are just curious. This hands-on program will allow you to explore many areas of the trades. In one week, you will be doing projects based on carpentry, automotive/mechanical, pipefitting, electrical and welding! Some of the projects you will get to take home and others will increase your knowledge and experience. This fun and interactive program will provide you with the opportunity to learn and discover future interests and careers in the demanding field of Trades. Learn from the best!

Instructors: MHC Trades department faculty instructors.

***Campers are required to wear long pants (shorts, capri pants are not permitted) and closed-toed shoes (no sandals or open-toed shoes). Coveralls or clothes that can get dirty are recommended. Campers with long hair should ensure they bring hair elastics in order to tie back their hair.*

ART ADVENTURES

Ages 10+. Enthusiastic about all things art and design? Then get ready for an exciting, art-filled week! Take your art to a new level and explore the fundamentals of painting and drawing including composition, perspective and basic colour theory. Create unique self-portraits and talk about pop art; learn about graphic design and design your own personal logos; and create and learn about eco-friendly art. Also enjoy a half-day at Medalta, in Medicine Hat's Historic Clay District, where you will learn about Medalta's history and try your hand at creating with clay. At the end of the week, invite your family and friends to the Art Adventure Exhibition featuring your creations! Please bring a lunch and two snacks every day, as well as sunscreen and clothing that's appropriate for painting in. Instructor: Katrina Simpson

LEAVE YOUR MARK IN THE PARK

This week will begin by learning and discovering what an installation actually is, then we will go for a walk to the park and talk about where ideas could stem from; bringing a camera to take photos of potential locations of where our installations could be created. The art can either have a deeper meaning/purpose, or simply be. The public will have an opportunity to "become" a part of the art and "enter our museum" as they are enjoying their time in the park. We will talk about what we want our "mark" on the world to be, what our values and hopes and dreams are for the future, how that might incorporate into the piece we chose to build. Installation art describes an artistic genre of three-dimensional works that are often site-specific and designed to transform the perception of a space. Generally, the term is applied to interior spaces, whereas exterior interventions are often called Land art; however, the boundaries between these terms overlap. Instructor: Randi Hoffman

DOCUMENTARY VIDEO FOR TEENS

Ages 13+. Have you ever wanted to make your own documentary video but did not know how to get started? This week, you will get to make your own documentary, and upload the finished video to the Internet! Together we will craft our documentary story lines, learn and practice the basic language and craft of videography and sound recording. Once you have completed shooting all your material we will head to a state-of-the-art Mac computer lab to begin post-production. The video editing software is Final Cut Pro X, for our sound tracks we shall use the amazing GarageBand. Before you know it, you will have created your own documentary that you will distribute via Vimeo.com. We have all the camera and sound gear, however if you own your own HD video capable DSLR you may certainly bring that to class. Instructor: Rory Mahony

VOLLEYBALL

All Volleyball Camps are based on a "games approach" to instruction. Our participants will learn in an environment that simultaneously teaches necessary concepts and basic tactics. It is our goal to equip participants with the ability to make appropriate game decisions, and then consistently execute the necessary skills in each situation. Of course, none of this matters if we're not having fun, so we'll have plenty of that as well! We will be running the camps on 4 courts (2 inside, 2 outside).

Participants should be prepared to be outside every day. We recommend a hat, sunglasses, small snack, sunscreen and a water bottle. The camp staff will consist exclusively of Rattlers athletes and coaches. Camps are organized and coached by the MHC head coaches, with assistance from MHC players. Campers will get to experience the thrill of learning from and playing with some of the top college volleyball players in Alberta. Max: 25 athletes

LUNCH SUPERVISION

All campers who are enrolled in a full day Sport & Wellness camp, as well as any campers that have combined a separate Sport & Wellness and Continuing Studies morning and afternoon camp, can participate in a FREE supervised lunch period. If your camper is registered in a full day Continuing Studies camp, please call 403.529.3844 for further details about lunch time care. Campers will eat their lunches on the upper level of the Medicine Hat College Cafeteria, which is an air conditioned area. Campers have the option of bringing their own lunch or buying their lunch from the cafeteria. Lunch time transition and morning to afternoon camp transition are fully coordinated by camp staff.

FOOD ALLERGIES

Because campers eat together, we cannot control all of the foods and odours that they may be exposed to as all campers in a designated area. We are a nut free camp, and we request that campers do not bring any foods that contain nuts, i.e. peanut butter or granola bars. If consuming nut products prior to arriving at camp, please wash hands diligently. If your child has any food allergies, we ask that you note them on your child's registration form, and we will make every attempt to accommodate their needs.

YOUR CHILD'S SAFETY

All Sport & Wellness Summer Camp Head Coaches are certified in First Aid and CPR to ensure a top quality experience for your child. During staff training, all emergency procedures for the College and camp are thoroughly reviewed. As well, the department conducts regular risk management audits on all camp equipment and policies. Procedures that include custody arrangements, child abuse, behavior modification, weather conditions, and the self-esteem of your child are covered in training. We also enforce strict sign-in and sign-out policies. (All parents/guardians must provide a valid piece of picture ID and be on the safe list to sign out their child). Please note that campers 11 years of age and under cannot leave the care of an instructor until a parent/guardian signs that child out. A child 12 years and older may leave on their own. If you would prefer that your child who is 12 years or older remains in the care of the instructors until a parent/guardian arrives, please indicate this on the registration sheet or by calling 403.504.3546 in advance of the camp start date.

WHAT TO WEAR AND BRING TO CAMP

All children should wear comfortable clothes including shorts, t-shirt, and running shoes suitable for physical activity. For cool days, a sweatshirt. It is strongly recommended and enforced that children wear hats while outdoors to shade their heads from the sun and wear sunscreen. All campers will be provided with a Sport & Wellness Water Bottle on the first day of camp and should bring it with them every day as it helps to replenish water loss experienced by physical activity in warm weather. A bathing suit and towel are needed for Friday afternoons, as campers will be participating in a recreational swim at Hill Pool. Campers are reminded not to bring items of value that are not required at camp, i.e. MP3/iPod, cell phones, and excessive amounts of money, etc.

SWIMMING

Swimming is a great physical activity outlet and is incorporated into the Sport & Wellness Summer Camps programming. If your camper is attending a camp on a Friday afternoon, please pack with them a swimsuit, towel, sunblock, snack and a drink. It is not mandatory that your camper swims, however it is highly encouraged. If there are any medical conditions, which may limit your child's participation, please note this on the registration form.

PICK-UP AND DROP-OFF

For the safety and security of all campers, the pick-up and drop-off area is located at the front of the C2 entrance of Medicine Hat College. Parents will be able to make use of the loading zone in front of the College. Drop-off for morning and full day programs will begin at 8:45 AM. Pick-up for morning programs will begin at 12:00 NOON. Drop-off for afternoon programs will begin at 12:45 PM. Pick-up for afternoon and full day programs is between 4:00 PM and 4:15 PM.

During the times prior to and following programmed activity periods, campers will continue to be supervised by Sport & Wellness Summer Camp staff. If campers have not been picked up by 4:15 PM, a charge of \$5 per 15 minutes will be enforced. If you require an earlier drop-off time and/or later pick up time, please register for the Pre and/or Post Care program to avoid any additional charges.

OTHER TEEN CAMPS...

LEAVE YOUR MARK IN THE PARK

This week will begin by learning and discovering what an installation actually is, then we will go for a walk to the park and talk about where ideas could stem from; bringing a camera to take photos of potential locations of where our installations could be created. The art can either have a deeper meaning/purpose, or simply be. The public will have an opportunity to "become" a part of the art and "enter our museum" as they are enjoying their time in the park. We will talk about what we want our "mark" on the world to be, what our values and hopes and dreams are for the future, how that might incorporate into the piece we chose to build.

Installation art describes an artistic genre of three-dimensional works that are often site-specific and designed to transform the perception of a space. Generally, the term is applied to interior spaces, whereas exterior interventions are often called Land art; however, the boundaries between these terms overlap. Instructor: Randi Hoffman
