Jessica Yee spends her days writing, but she is not a writer. The locally renowned calligrapher puts pen to paper masterfully spelling out names and addresses; honing her technique; and experimenting with new letter art. Jessica began studying the lettering arts thirty years ago, learning from some of the premier calligraphers and letter artists of the world. The founder of the Oblique Pen finds beauty in letters and how they are created. Jessica loves the elegant smooth and fluid scripts that a pointed pen creates. Moreover, she enjoys meeting and working with clients, sharing in their poignant moments while bringing art to life. When the married mother of four is not busy creating an artistic expression of a wonderful occasion, Jessica is heavily involved in serving the arts locally.

Drawing with Katie

Discover the Benefits of Becoming an NC Notary

Why would I become a notary?

You can enhance your professional career, serve the public as a trusted public official, and earn additional income. Notaries work in a variety of professions including court reporters, paralegals, attorneys, mobile notaries, bankers, and increasingly as signing agents within the mortgage industry.

What do NC Notaries do?

Notaries witness signatures on a variety of high value and important business and professional documents. Some specific tasks include administering oaths and affirmations related to affidavits, taking acknowledgments, inventorying abandoned safe deposit boxes, and notarizing absentee voter ballots.

Steps to becoming a notary:

STEP 1: Purchase the "2016 North Carolina Notary Public Manual."

STEP 2: Take a 6-hour notary course.
(These include the classes shown on the right)

STEP 3: Pass the final exam with at least 80%.

STEP 4: Submit a notarized application along with a \$50 fee.

STEP 5: Take the Oath of Office at the Register of Deeds office.

STEP 6: Obtain a notary seal and a notary journal.

Watch this video for more details:
https://sosnc.gov/divisions/notary/become_a_notary

What advice would benefit a newly licensed NC Notary?

Notaries have a statutory responsibility to protect the public from fraud and forgery and are often the last line of defense against document fraud. Notaries must follow the notary law to the letter without relying on their unauthorized independent judgment.

New Notary Public Education

Learn to perform the five notarial acts authorized in North Carolina including acknowledgments, oath and affirmations, verification's and proofs, inventorying abandoned safe deposit boxes, and notarizing voter absentee ballots. A Provider Profile: Natalie Hill

Natalie Hill has been a writer, editor, and educator for over 25 years. Her love of writing led her to careers in public relations, marketing, advertising, video scripting, songwriting, and publishing. She currently teaches English at a local university and conducts writing classes with Adult Evening Education.

How would you describe your hometown and upbringing?

I grew up in a diverse ethnic and racial section of Philadelphia. Most people were first, second, and third generation families of early 1900's immigrants from many areas around the world. Everybody had a story. Stories were happening all around me. I could see by the action in the area stories evolve, plus I heard many stories about the old work, new life in America, and future dreams and hopes for new generations.

Describe your educational journey.

I was one of those returning adult learners, having left college to pursue singing aspirations.

When did you first find your love of writing?

I learned to read at the age of three. By first grade I was writing stories. The oldest writing I have kept came from age nine – poetry, songs, and a horror story.

What motivated you to begin teaching the art of writing?

I felt that there are so many good stories that get shared but then lost within families. I wanted to help people write their stories, so they can preserve history.

What author do you idolize and what is your favorite book?

I most enjoy humor and satire, especially in memoirs. I love the writings of Jean Shepard who wrote "A Christmas Story". I had an opportunity to interview him. My number one author is Mark Twain.

It is too hard for me to choose a book, but if I was lost on an island I would need his humor, James Thurber's satire; Charles Dickens's drab descriptions to make me thankful for what I have; and Toni Morrison's "Beloved". I love that book. Her masterful stories are ripe for interpretation.

If you could give one writing tip to everyone, what would it be?

One writing tip I would give is to write without fear. Easy to say, hard to do.

What do you enjoy most about teaching lifelong learners?

I love seeing students become confident when orally sharing their stories; as well as to see them learn how to find their voice and style on paper. Some use first person, others like to use a fictional name.

You have an extensive professional background, but what is one thing you haven't done that you would like to do?

Well, I started out as a singer/songwriter so I would have liked to have done more travel sharing songs and stories. I have visited all but four of the United States. I wish I had written down all the stories from folk I have met.

Memoir Writing

It doesn't matter if you're a famous politician, suburban homemaker or someone in between, the fact is you have a personal story worth telling. "Memoir Writing" is a comprehensive step-by-step guide that will demystify the process of finally putting your story on paper. Through varied writing exercises, sharpen your instincts and hone your storytelling. The course will cover voice, character, scene development, structure, editing, and incorporating feedback. Receive individualized guidance from instructor Natalie Hill, a noted composition professor and professional writer. If you need a boost to start writing or have a memoir in the making, you're welcome to attend.

Writing to Heal

Therapeutic writing dissolves buried pain to heal the body, build the immune system, and invigorate mental stimulation. Instructor Natalie Hill used therapeutic writing to help her overcome a cancer diagnosis. You, too, can use writing to release stress, pent-up emotions, and to confront fears about illnesses. Through writing, you can have epiphanies about the choices you've made and how they have impacted where you are today. Be free of the emotional and physical scars that are masking your inner beauty. Create a positive outlook to overcome any challenge you face.

New Introduction to Positive Psychology

Materials \$

Put down those old self-help books and open your mind to exploring the science and benefits of Positive Psychology. Positive Psychology can teach us the knowledge we need to increase our optimism, our positive affect (happiness levels), and to benefit our health. Even though we all have a particular genetic disposition to happiness levels, it can be increased through awareness of and practice of positive psychology interventions. Students will leave with this awareness and specific strategies and techniques to use.

Mindset: Even if You Think You Can't, You Can!

Our behaviors and their consequences are determined by the underlying beliefs and thinking habits we hold—our MINDSET. Did you know that Mindsets can limit our success and affect our health? Underlying Mindsets can be either at the heart of our inertia or at the heart of our earnest efforts. Even if you feel you are 'open-minded'—no doubt some fixed beliefs are holding you back in some areas. In this class, you can learn where they come from, how to recognize the fixed ones when we have them and how to change them when needed.

New Vision Board: Let's Party!

Do you have a vision of what you want to accomplish in life, but, whether it's an immediate, short-term or a long-term goal, you can't seem to make it happen? Often, fulfillment of the vision is not our inability to see a mental picture of what we hope to accomplish, but it's our lack of "know how" and inability to execute a plan for that mental picture, that keeps it from coming to pass. Benjamin Franklin said it best, "if you fail to plan, you plan to fail." So, come, let's party! Bring a stack of your favorite magazines, as I share with you the secret to getting your vision realized!

New High School English Tutoring

Did you know that according to the US Department of Education students who are tutored show significant gains in reading skills when compared with similar students who do not receive tutoring? High School English Tutoring will help high school students (ages 16+) gain critical reading and thinking skills necessary to promote lifelong readers and learners.

See page 39 to register online, by phone, or mail; call the Provider, Melinda Schroeder, at 919-267-5190 for more information.

Melinda Schroeder is a passionate teacher of reading and writing. She graduated from Needham B. Broughton High School and went to The University of Mississippi where she decided to become a teacher. She has two daughters, a husband, and two dogs.

For the past 17 years, Schroeder has loved educating middle schoolers. She hopes to inspire reading with purpose and to encourage lifelong learning. Her goal is to help show growth academically as well as personally in all things reading and writing. She looks forward to sharing this opportunity of growth and collaboration with you.

New HS Math Tutoring

Improve your knowledge and gain the opportunity to pull together and apply the accumulation of mathematics concepts learned previously. Appropriate technology and tools, including manipulatives and calculators, will be used regularly for instruction and assessment. The Standard for Mathematical Practice applies throughout each course and, together with the content standards, require that students experience mathematics as a coherent, useful, and logical subject that uses their ability to make sense of problem situations.

Tamiko Williams is a 20-year veteran of teaching middle school mathematics. She graduated from Saint Augustine's University with a Bachelor of Science degree in Math Education. Mrs. Williams has a variety of teaching experiences in

different environments such as Montessori, public and private schools. She is also a Wake County teacher mentor where she has had the pleasure of guiding new teachers to find their path in education.

Mrs. Williams recently co-led a Math Lab tutoring program for three years. The program was designed to help students improve their growth in mathematics. She also recently was selected to be a part of the Kenan Fellowship Program where teachers partner up with major companies to learn 21st century job skills. Teachers then bring these skills into the classroom and incorporate in their lessons.

Site Coordinator Profile: Justin Viens

Where did you grow up and what was it like growing up there?

I am lucky enough to be teaching at the same school that I attended as a middle school student myself. After leaving the area to attend college, I ended up teaching ESL in South Korea for several years. When the time came for me to return home, the only place I could ever imagine myself returning was Fuquay Varina. I love the small town feeling and the diversity of my community. I've been here 25 years, and I hope to remain for many more. I couldn't think of a better community.

What are you most excited or passionate about?

I'm most excited about community service. I'm lucky enough to be the 4-H club adviser at Fuquay Varina Middle School, where I get to share my passion with my students. Our students have worked hard to create the Fuquay-Varina Community Garden, which was a program our 4-H'ers created in 2015 as a way to combat food insecurity in southern Wake County. Our students brainstormed this entire plan on their own, with only minimal input from myself. All food from our garden goes to local food pantries. I'm proud of my students for coming up with such a wonderful plan, and it makes me truly appreciate being an educator.

As you know we are always growing and learning. Is there anything you would like to take the time to learn more about?

I always wished I could speak a foreign language. I've spent a great deal of time traveling, and when you are able to communicate with your country's hosts it really opens up your experiences. I've always thought learning a language like Korean, Arabic, or French would be interesting.

What led you to become a Site Coordinator for Adult Evening Education?

Since I grew up in Fuquay, I've always felt an attachment to my community. My goal with Adult Evening Education is to help spread the word about how great our school is and improving our community.

Describe a typical evening as a Site Coordinator for Adult Evening Education.

I'll normally greet our providers and students when they arrive and make sure they have everything they need to enjoy their evening. I'm always wandering around making sure everyone has what they need.

What do you like most about being a Site Coordinator?

I'm a people pleaser, so I'm big in making sure people are happy. I get joy out of finding what people want and working hard to get it to them. As a teacher at FVMS, I get the opportunity to work with 120 students, 58 staff members, and countless parents to make our community great. I like being able to apply that enthusiasm in making Adult Evening Education work for our clients and providers.

If you could share one bit of advice you've learned in life, what would it be?

Travel as much as you can and always eat like the locals do.

What is Community Schools?

Community Schools, a section of Community Services of Wake County Public School System in the Communications Division, is dedicated to maximizing the use of public school buildings during non-school hours. Lifelong Learning with Community Schools provides local residents with courses and activities that are educational, recreational, cultural, civic-oriented, or social in nature. Most of the courses in this program are designed for all people ages 16 and older; any exceptions are noted. The goal of Community Schools is to meet the needs of each individual community at the neighborhood level. A catalog containing Lifelong Learning with Community Schools courses is published three times a year.

? FAQs

Where is my class? Room assignments for classes are posted visibly inside of the school on the first night of class. Site coordinators will greet and guide you. The schools open at 6:15 PM. Please arrive on campus after that time.

What is the age for attendees? Unless otherwise noted, the courses are normally for anyone 16 or older. Classes for younger people will state so in the description.

Is childcare provided? We regret that childcare is not available for the children of students of the Lifelong Learning program. Children and family members are not allowed on campus.

Are Teacher Continuing Education Units (CEUs) available? For specific teacher-targeted courses, see the section labeled "Teacher CEU/Parent." "CEU" will be listed next to the course description. If you have a question regarding whether or not a class is appropriate for your certification, call DPI at 1-800-577-7994, or the Licensure Specialist with the NC Department of Public Instruction at 919-807-3310, extension 3. 100% attendance is required to receive teacher CEUs.

Where do I park? Park in designated spaces for regular cars only. Do not park in a bus lot.

Is smoking allowed on campus? No. Smoking is not allowed on campus. All Wake County Public Schools' campuses are tobacco free! That includes cigarettes, chewing tobacco, and all other tobacco products.

What if my class is canceled? How do I get my refund?

It is up to the provider as to whether there are enough students to hold the class. If the provider decides to cancel the class then your refund would come from that provider. Refunds are the responsibility of the provider, not Lifelong Learning with Community Schools. To avoid classes being canceled, it is best to register early.

What about inclement weather? If a school is closed due to inclement weather, it will be posted on the Wake County Public Schools' website at wcpss.net and the Community Schools' website at cs.wcpss.net and announced on local radio and television stations. It will be up to the providers to decide if and how they will make up the missed classes.

How do I learn more about a class I am interested in?

If you desire additional information on a course, please call the number that is listed below the course description. For general questions about the Lifelong Learning Program, call 919-694-0559 or send an email to lifelonglearning@wcpss.net.

Can I teach a course through Lifelong Learning? Yes! We look for providers three times per year for fall, spring, and summer. Providers create their own courses and teach them. The provider decides the schools, dates, times, and fees for the class. For more information, send an email to lifelonglearning@wcpss.net.

Can I register by 'walk-in' registration? It is suggested that you always pre-register. However, if you're unable to, call the provider and arrive at the class location 15 minutes prior to class.
