**A MESSAGE FROM AMBER M. DIXON
INTERIM SUPERINTENDENT, BUFFALO PUBLIC SCHOOLS**

I would like to welcome you to the first edition of our **Buffalo Public Schools Adult Education Division PARTNER DIRECTORY**.

Since starting as Interim Superintendent last September, I have had the opportunity to learn a great deal about the essential services our Adult Education Division provides. I have also had the pleasure of meeting some of the many community partners who play a key role in making sure residents in Buffalo and across Western New York have access to the instruction and training they need for post-secondary education and career advancement – and to the life skills preparation that will allow them to become productive and accountable citizens.

Because of my own background in industry, I am well aware of the need for literate, educated and responsible employees and citizens. And with continual advancements in technology, workers must ensure that they are life-long learners. In view of this, the Buffalo Public School District is committed to:

- Ensuring that every student has the confidence, knowledge, thinking skills, character and hope to assume responsibility for her/his life and to contribute to the lives of others;
- Championing excellence and innovative learning experiences in partnership with family and community; and
- Holding the district accountable for educating our students and for working to energize all members of the community to actively participate in the accomplishment of our mission.

The Buffalo School District is the second largest in New York State serving a diverse population of 34,000 children in K-12 classrooms and over 6,000 adults enrolled in GED, literacy and ESL courses and workforce training programs. Our most important job is to provide high quality services to all of these students.

I strongly believe that Buffalo will succeed if our educational system successfully serves our families. By strengthening families, we strengthen the community. I thank everyone who works towards insuring that success.

January 2012

Greetings,

We are pleased to introduce the **Buffalo Public Schools Adult Education Division PARTNER DIRECTORY**.

In the following pages you'll find information about our close to 50 collaborating organizations that comprise a vital service network across Western New York. We are also providing information about the Buffalo school district – and the Adult Education Division in particular – that we feel will be useful both for our partner organizations and for others who may be utilizing this directory.

Our investment of 150 instructional staff at our partner sites allows us to provide broad access to no-cost literacy, GED, and ESL instruction for thousands of community residents so that they can “Go Back & Move Forward.” In addition, those looking to gain new skills for new careers or sharpen skills they already have can enroll in a wide variety of workplace training, computer and recreational courses held in our main facilities as well as several other sites in and around Buffalo.

As partners, our impact in the community is significant. We are proud of what we have accomplished together. Since 2009, the Adult Education Division has met or exceeded all state and federal targets for academic gains, enrollment in post-secondary institutions, and employment. Approximately 45% of our literacy and GED students are parents or guardians of children in Buffalo Public Schools.

Please know that our team of professionals is always available to answer your questions and provide more information about our programs. In collaboration with our many partners, we are looking forward to another successful year serving our community.

Sincerely,

Lester B. Leopold
Director of Adult and Continuing Education

ABOUT THE ADULT EDUCATION DIVISION

The Adult Education Division of Buffalo Public Schools (AED) provides adult literacy, ESL, and GED instruction to adults and out-of-school youth, 17 years and older. A wide variety of workforce training and computer courses are also offered through AED. Our goal is to increase our students' literacy and job skills for the purpose of enrollment in college, securing employment and improving parenting and citizenship.

Community in need

Buffalo is the third poorest city in the nation. Approximately 44% of the city's low literacy adults live in poverty. Among juvenile offenders, 85% have reading problems. The unemployment rate among AED low literacy students is 40%. These problems are intergenerational: It is more likely that children will not read well when parents experience difficulty reading.

A profile of our students

More than half of our students (65%) are women. 50% are African American; 28% are white; 15% are Hispanic; and the remaining 7% is comprised primarily of Asians and Native Americans. In addition, the number of immigrant students is increasing each year as Buffalo's role as a center for refugee services has grown.

Serving customer needs

Quality educational services and workforce training programs have been designed to meet the learning needs of a broad and diverse universe of learners and are delivered in close to 40 sites throughout the region. Through strategic partnerships with the organizations and agencies featured in this directory, the Adult Education Division has established a citywide service network that reaches those most in need.

Results for the 2010-2011 school year

Total students served	6,585
Students in literacy and GED classes	3,990
Percent of students making gains	50%
Students earning their GED	250
Students securing employment	712
Students in workforce training programs	3,124
Students who matriculated to ECC or Bryant & Stratton	286
Students who graduated from ECC or Bryant & Stratton	140

For further information visit the Buffalo Public Schools Adult Education Division website at **www.UpSkill.org**.
