HIGH SCHOOL COLLEGE CREDIT OPPORTUNITIES

Azlynn Beck

“Taking concurrent classes has put me so far ahead in college!! It is crazy! I am so grateful for the opportunities I took advantage of in high school! I haven’t had to take an English, political science, or math class at all, and it has relieved me of so much stress! I would definitely recommend it to everyone who is considering it!”

Austin Smith

“Having taken 30 college credits through Western at high school, I came into college very prepared. For example I was registered as a sophomore and only had to take one general class. But one of the most helpful things was being prepared for my college classes. The classes (at UW) are even run on the same Canvas program that I used in high school, so it has been very easy to transition from high school to college. Most importantly it saved me loads of money.”

Explanation of Course Numbers

Each course is assigned seven digits. The first three or four digits indicate the area of study (for example, Art); the center four digits indicates course level (0900 means nontransferable, 1000 means freshman level, and 2000 means sophomore level).

Courses numbered less than 1000 are nontransferable, non-graduation courses.

Notice to Students

Instruction will occur at the first class meeting. Come prepared for an exciting learning experience.

Note on Class Size

For financial and quality of instruction reasons, classes with fewer than 10 students may be cancelled.

Unattended Children

For safety and liability reasons, WWCC cannot assume responsibility for children left unattended in the buildings. Parents are encouraged to find an alternative place for their children while attending classes.

Avoid Disappointment!

Each term we sadly have to cancel courses because of low enrollment, only to find out the day of the first class that several of you intended to enroll. It is best to register before the course start-date to avoid disappointment.
