**SCHOLARSHIPS  
are AVAILABLE**  
for our summer youth  
programs. Form is inside  
the back cover.

## Dear Parents

As you plan your 2014 summer, we hope that you will consider enrolling your child in one of the University of Wisconsin-Marathon County's popular summer educational opportunities: College for Kids, Wizarding Academy and Middle School University. The 2014 program offers a broad range of creative courses that will inspire and challenge students in all grade levels. Our programs are designed to:

- stimulate intellectual curiosity;
- encourage creativity;
- instill confidence;
- develop problem solving and critical thinking skills;
- be fun and hands-on.

All classes will be taught by highly trained and talented instructors from the local area school districts and UWMC. Our staff and instructors provide a well-supervised and safe environment in which to learn. THE UWMC SUMMER YOUTH PROGRAMS are for all children who want to discover learning new things. We ask that children new to the "College for Kids" program get a signed letter from their teacher verifying that s/he is able and motivated to participate in that program.

### **Scholarships are available for all of our summer youth programs.**

We have many generous foundations, civic organizations and individuals who contribute to our scholarship fund so please complete the application form on the inside back if you need financial help to register your child. Send it in with your registration.

We look forward to an exciting and enjoyable summer and hope your child will join us for an enriching, mind-crafting experience.

Sincerely,

*Jennifer Eaton*  
Youth Programs  
UWMC Continuing Education

### **VOLUNTEER ESCORTS NEEDED!**

We want to provide additional escorts between classes for our grade K-1 students. If you are available each day to help provide this service from 10 – 10:15 AM and/or from 12 – 12:15 PM, please contact us by May 16.

**THANK YOU! GRACIAS! DANKE!**

State of Wisconsin General Purpose Revenue funds are not used in the printing and distribution of this brochure. All expenses for this program are covered by revenue fees.

**WEEK ONE CLASSES, JUNE 16 - 20**

**8:15 – 10 AM**

- 46 ADVENTURES IN GEOCACHING, SECTION A** **Doug Beck – Tuition: \$35 MF: \$8**  
This isn't hide and seek – it's geocaching! Geocaching is an outdoor adventure that combines Global Positioning Systems (GPS) technology and the thrill of treasure hunting. Learn the basics and etiquette of geocaching, then go on a hunt and create a hunt for others. You will discover how to decipher codes (hints that help unlock the mysteries of hidden caches) and how to place and track "travel bugs" that move from cache to cache.
- 47 ROLLER COASTER SCIENCE, SECTION A** **Renee Heinrich – Tuition: \$35 MF: \$5**  
Everybody loves a roller coaster, or at least watching one. How does energy work in roller coasters? Put the components of science, technology, engineering and math (STEM) together in a fun way to create roller coasters out of everyday items, K'NEX building sets and more. Work as a team to calculate, design and build your own coaster. You are sure to enjoy this amazing ride!
- 48 THE MAGIC OF PRINT MAKING** **Dianna Osypowski – Tuition: \$35 MF: \$8**  
Be inspired to create drawings and prints representative of various subjects, learning about the process of how magical it is to take an image from the imagination to multiple works of art.
- 49 FANTASY BASEBALL, SECTION A** **Matt Froom – Tuition: \$35 MF: \$5**  
Each day you'll pick your favorite players from Major League Baseball and keep track of their statistics. You will use the Internet to research player stats and graph the data in Microsoft Excel®. If your players do well, your team scores. Can you pick the dream team?
- 50 PHUN WITH PHOTOSHOP I** **Brad Schmicker – Tuition: \$35 MF: \$6**  
Discover the world of computer art. Create your own masterpieces using Adobe PhotoShop®. You'll begin with the basics, use draw and paint tools to create a simple sketch. Learn how to use layers to add excitement to an imported photograph or graphic. Finish the week by enhancing digital pictures using the skills you have learned. You'll say, "Phabulous!"
- 51 MUSIC & TECHNOLOGY: FUNKY BEATS, SECTION A** **Mike Maher – Tuition: \$35 MF: \$8**  
If you are interested in music enrichment, this course will strengthen knowledge of composition, note reading and rhythm reading. Analyze musical recordings to study musical form and compositional techniques. Explore your personal musical creativity and produce music with FL Studio computer software. Use a variety of different instrument sounds and drum beats and create unique sounds with a built-in synthesizer. By the end of the week, you will have compiled your own small collection of digital music that you will keep as a CD.

**8:15 – 12 NOON**

- 52 GONE FISHING!** **Ryan Priebe – Tuition: \$70 MF: \$8**  
Learn how to locate fishing spots from shore, use different knots and lures for fishing and how to identify various species of fish. You'll travel to Bluegill Bay Park each day and participate in a fishing derby that lasts all week. Fishing pole is required. This class is for ALL ages. Parent drivers are needed. *Please consider volunteering!*
- 53 CHEER CHOREOGRAPHY CLINIC** **Alexandria Fernstaedt – Tuition: \$70 MF: \$10**  
Fall in love with the enthusiastic sport of cheer and dance! Learn safe and exciting cheer concepts and skills including nutrition, proper stretching, arm positions, stances, chants, cheers, jumps, dance and low-risk tumbling. At the end of the week, celebrate with a fun choreographed routine. Note: Designed for students who have completed 4-6th grade. Must wear comfortable "gym" clothing and athletic shoes and bring light snack and water bottle. Class size limited to 16.

**1 - 3:45 PM**

When you combine hands-on science, high technology, and computer programming, what do you get? An interactive project that stimulates your imagination and creativity while letting you explore, experience, and express your world – a world without limits. Using gizmos and gadgets from the LEGO Mindstorms Robotics Inventions System, you will design, build and program a robot to complete a mission. This program is designed to introduce basic robotic concepts. Students will work in teams to design a robot that will guide itself through an obstacle course. And, of course, you'll have a blast while doing it.

**NOTE: This course is limited to 20 students and runs throughout the afternoon. Students should bring a snack and beverage for their break.**
