Courses

Grade Level is Completed Grade. Students may elect to go down one grade level for class selection. Fees quoted include materials/supplies.

**WEEK 1:
AUGUST 3-7**

College for Kids

Urban Sketching

Learn how to draw with waterproof pens and add light, colorful washes of watercolor to create beautiful free style drawings of houses, trees, pets, and people. This style of art is used by thousands of artists who draw buildings and people in everyday situations to create fresh drawings.

CFKD:705 | \$52

Grades K-3

606 M-F 11am-12:20pm
Aug. 3 – Aug. 7 **Adrienne Rosen**
MC - SW, 102

Grades 4-8

605 M-F 9:30am-10:50am
Aug. 3 – Aug. 7 **Adrienne Rosen**
MC - SW, 102

Adventures in Cartooning (Grades 4-8)

This class is geared both for students who like to draw by hand as well as those who prefer to sketch on the computer. Each student will create either a four-panel comic strip or a page of comic book art. The course will cover the fundamentals of comics, including: framing, style, character, emotion, lettering, coloring, story and coming up with a name for your comic.

CFKD:705 | \$55

603 M-F 9:30am-10:50am
Aug. 3 – Aug. 7 **Zak Zych**
MC - HE, 231

Studio Art

Dabble in a different medium every day! Experience drawing, painting, sculpture and more as you stretch your creativity in this class. Paint shirt is necessary.

CFKD:705 | \$53

Grades K-2

600 M-F 9:30am-10:50am
Aug. 3 – Aug. 7 **M. Ochonicky**
MC - HE, 125

Grades 3-5

601 M-F 11am-12:20pm
Aug. 3 – Aug. 7 **M. Ochonicky**
MC - HE, 125

Studio Painting (Grades 4-8)

Love to paint, or want to learn? Aspiring artists will spend the entire week painting with acrylics on a stretched canvas and take home a ready-to-frame masterpiece at the end of the week. Each student will determine his/her own subject, with individualized instruction from a professional artist. Paint shirt is necessary.

CFKD:705 | \$89

602 M-F 12:40pm-3:30pm
Aug. 3 – Aug. 7 **M. Ochonicky**
MC - HE, 125

Re-Action Science 2.0

It is reloaded and retooled so get ready for Re-Action Science. We will start with some chemistry right from the kitchen. Then we will work with the wonderful world of magnets. Next, we will try to crack the code of the egg drop (hopefully without cracking anything else). And then we will go to the air with wet and wonderful water rockets. Be prepared to get wet and muddy so dress appropriately.

CFKD:711 | \$53

Grades K-3

602 M-F 11am-12:20pm
Aug. 3 – Aug. 7 **Joseph Higgs**
MC - SS, 106

Grades 3-5

603 M-F 12:40pm-2pm
Aug. 3 – Aug. 7 **Joseph Higgs**
MC - SS, 106

Video Game Creation with Scratch (Grades 4-8)

Create your own video games, interactive stories, animations, music and art with Scratch! Scratch is a programming language created at MIT that makes it easy to make your own digital creations and even share them on the Web. As you create and share Scratch projects, you will learn important mathematical and computational ideas while also learning to think creatively, reason systematically and work collaboratively.

CFKD:714 | \$55

600 M-F 9:30am-10:50am
Aug. 3 – Aug. 7 **Jerry Bearden**
MC - SW, 110

605 M-F 2:10pm-3:30pm
Aug. 3 – Aug. 7 **Jerry Bearden**
MC - SW, 110

Stop Motion Animation: Mini Movie Magic (Grades 4-8)

With stop motion animation create your own mini-movie, the tweet of the movie world and the hottest trend on the web. Use your creative talents to make movies, animation, music videos and more that you'll be proud to share with your friends and family. You will learn to use multimedia including pictures, video, voice, sound and music techniques to create mini-movie magic. More fun than a video game and you'll gain valuable skills for your future.

CFKD:714 | \$55

604 M-F 12:40pm-2pm
Aug. 3 – Aug. 7 **Jerry Bearden**
MC - SW, 110

3D Game Design (Grades 4-8)

Learn fundamental programming concepts in the context of creating animated movies and simple video games with an innovative 3D programming environment called Alice. Alice makes it easy to create an animation for an interactive game, or a video. In Alice, 3-D objects populate a virtual world and students create a program to animate the objects. By manipulating the objects in their virtual world, students gain experience with all the programming constructs typically taught in an introductory programming course.

CFKD:714 | \$55

601 M-F 11am-12:20pm
Aug. 3 – Aug. 7 **Jerry Bearden**
MC - HE, 112

Computer Animation: Flipbook Theatre (Grades 4-8)

Using your own artwork, make a 3-5 second movie. Using both hand-crafted and digital media, students will create a flip book and then a digital version in QuickTime format. Emphasis will be placed on animation as a means of personal expression, and on telling stories with a beginning, middle and end. Students will be encouraged to create their own stories and work in their own style, but must have the ability to draw, paint or photograph 30 to 50 sequential images. Prerequisite: Student must have basic computer skills. Please note the time difference for this class. There will be a 10-minute break from 2-2:10pm.

CFKD:714 | \$85

603 M-F 12:40pm-3:30pm
Aug. 3 – Aug. 7 **Zak Zych**
MC - HE, 231

Courses

Grade Level is Completed Grade. Students may elect to go down one grade level for class selection. Fees quoted include materials/supplies.

Registration begins April 6.

Studio Photoshop (Grades 4-8)

Interested in graphic design, advertising, animation, film making, publishing or any of the visual arts? If so, digital imaging is important to you! In this computer class, you will learn the fundamentals of digital imaging. You will learn masking, cloning, extracting and the importance of resolution. You will create your own planet and starscape, induce the illusion of text on fire and master the fundamentals of multi-layered documents. We will use Adobe Photoshop software. Prerequisite: Student must have basic computer skills.

CFKD:714 | \$55

602 M-F 11am-12:20pm
Aug. 3 - Aug. 7

Zak Zych
MC - HE, 231

Bonjour Mes Amis!

Bienvenue, mes amis! (Welcome, my friends!) You will have an exciting opportunity to learn both the alphabet and the numbers from 1 to 100 in French so that you will be able to enjoy French bingo. In addition, you will learn about the country, culture, and people of France with the help of the internet. Your artistic skills will be encouraged. To summarize what you have learned in the class, you will get the opportunity to create your very own board game about traveling in France. Bon voyage!

CFKD:726 | \$49

Grades K-2

600 M-F 9:30am-10:50am
Aug. 3 - Aug. 7

Joan Brennan
MC - SW, 206

Grades 3-5

601 M-F 11am-12:20pm
Aug. 3 - Aug. 7

Joan Brennan
MC - SW, 206

Chess: Introduction & Beyond (Grades K-8)

The basics of the game will be taught as well as the fundamental checkmating principles. Prerequisite: No prior chess experience necessary.

CFKD:727 | \$43

600 M-F 9:30am-10:50am
Aug. 3 - Aug. 7

Gabriel Boyd
MC - HE, 123

603 M-F 2:10pm-3:30pm
Aug. 3 - Aug. 7

Gabriel Boyd
MC - HE, 123

Chess Openings & More (Grades K-8)

Fundamental chess openings will be explained and analyzed as well as advanced, middle and end game analysis. Prerequisite: Must have had at least two College for Kids chess class with Gabriel Boyd in the past.

CFKD:727 | \$43

602 M-F 12:40pm-2pm
Aug. 3 - Aug. 7

Gabriel Boyd
MC - HE, 123

Chess Introduction Phase II (Grades K-8)

Chess middle, end-game and tactics will be thoroughly explained. Prerequisite: Must have had at least one College for Kids chess class with Gabriel Boyd in the past.

CFKD:727 | \$43

601 M-F 11am-12:20pm
Aug. 3 - Aug. 7

Gabriel Boyd
MC - HE, 123

Become a Human Calculator (Grades 4-8)

$42 \times 48 = ?$ $251 - 85 = ?$ $62 / 99 = ?$ What if your children could solve these problems instantly-in their head-faster than you can use a calculator! They will learn this and more in our brand new class, "Become a Human Calculator! Amidst the fun of learning math-based magic, your child will learn rapid calculation techniques for addition, subtraction, multiplication, and division. For additional variety, they'll also enjoy math puzzles, math comedy, and math games. Each night they'll bring home new feats to show. In the last class, students will participate in a lightning calculation demonstration. Goals are to learn rapid calculation tricks, develop presentation skills and confidence, and to have fun. Maybe someone will ask, as one sibling did, "Did he swallow a calculator?"

CFKD:729 | \$55

601 M-F 2:10pm-3:30pm
Aug. 3 - Aug. 7

MC - SW, 208

ADDra-Kid-Abra (Grades K-3)

Mind read the number a spectator is thinking of! Instantly add a column of 4-digit numbers! Make balls travel mysteriously from one hand to another! Learn these tricks and more in our brand new mathmagic class, ADDra-Kid-Abra! Students get their own magic case and new props to put in it each class. You may well get a nightly show! The tricks are math-based. So while students develop their presentation skills as they enjoy learning magic, they are also sharpening skills in addition, subtraction, measurement, counting, even/odd, and geometric shape recognition. The class concludes with students putting on a mathmagic show for their families.

CFKD:729 | \$55

600 M-F 12:40pm-2pm
Aug. 3 - Aug. 7

MC - SW, 208

Music Writing (Grades 3-8)

Do you dabble with writing songs or change the lyrics to a tune? Then this class is for you! Learn the basics of writing music using the Finale program. Students will learn how to arrange short pieces and compose their own music.

CFKD:731 | \$54

600 M-F 12:40pm-2pm
Aug. 3 - Aug. 7

Christina Springer
MC - HE, 112

Invention Dimension

Explore the world of inventions and inventors! In this class, you will first brainstorm ideas that solve problems. Then, you will write a description of that idea, research it to learn if such an invention already exists, (patent search) and create appropriate drawings for your idea. This class will include learning how to conduct a patent search, create patent diagrams/drawings and how to file a patent application.

CFKD:738 | \$49

Grades 3-5

Courses

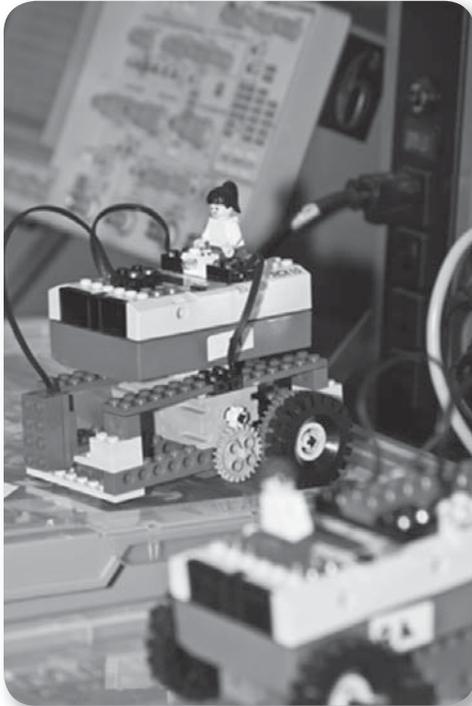

Grade Level is Completed Grade. Students may elect to go down one grade level for class selection. Fees quoted include materials/supplies.

LEGO® Robotics (Grades 3-8)

Explore the next generation of LEGO® NXT Robots! Learn how to program LEGO® NXTs to interact with its environment using a variety of sensors. Learn how robotics develop innovation, problem solving skills, teamwork and creativity. Students will use robotics kits in class only — students WILL NOT keep the kits or take home robots. Information will be made available for students who would like to purchase kits on their own. Students are allowed to bring their own robot in from home. This class is not affiliated with or endorsed by LEGO® Group.

Comedy Club

What makes us laugh? What is the difference between a comedian and someone who is just funny? Why do various cultures find certain routines funny, but others not. Welcome to Humor 101! In this class we will practice our timing, tell jokes, and run comedic sketches. We will spend a portion of class watching film clips and we will discuss what made the Kings and Queens of Comedy great. The rubber chickens are about to be passed to a new generation. Let the double takes begin, its show time folks!

Shake Hands with Shakespeare (Grades 4-8)

****Please note this class meets for two time-periods over two weeks. In this two week acting class we will rehearse and then perform a staged reading of an abridged version of "The Two Gentlemen of Verona." We will examine the play as actors preparing to speak Shakespeare's words and bring to life the characters in the play. Along the way we will also practice vocal, physical and improvisational exercises to enhance our acting skill.

Magical Mystery Camp (Grades K-4)

What do you get when you combine theater and magic into one camp? Introducing Magical Mystery Camp! Learn new magic tricks each day and treat your parents to a nightly show! Campers will weave their tricks into a mystery show, which they will create and perform on the last day for their families! In learning magic, theater, and improv your child will develop their presentation skills and confidence-while having a lot of fun in the process!

CAMP:718 | \$55

600 M-F 11am-12:20pm
Aug. 3 – Aug. 7

MC - SW, 208

Amazing Balloon Creations (Grades K-4)

You won't believe how much fun you can have with balloons! You'll learn to twist many different animal balloons. You'll master yo-yo balloons, learn the secret to bouncing a balloon high off the floor, launch a rocket balloon, a flying saucer balloon. Take home your balloon creations each day! In learning balloon art, students will do some reading and jot notes in their balloon notebooks. So in addition to learning balloon creations, they'll hone their reading and writing skills a bit too. Class culminates with the students putting on an exhibition of their balloon crafting talents for their families.

605 M-F 11am-12:20pm
Aug. 3 – Aug. 7 **Beth Skelton**
MC - AS, 204

Advanced Orienteering: Map & Compass Skills (Grades 3-8)

Take your orienteering skills to the next level! Students will learn advanced orienteering techniques as well as engage in some orienteering competition within the class.

CAMP:765 | \$49

606 M-F 12:40pm-2pm
Aug. 3 – Aug. 7 **Beth Skelton**
MC - AS, 204

Junior Counselors (Ages 12-14)

Ages 12-14 This is the most fun you'll ever have at a job! Counselors will fill out an actual job application and go through a real interview. Junior counselors will receive training and work during the College for Kids program. Junior counselors will work with the kids in the classroom assisting the instructors. Note: Junior counselors will be expected to attend all training sessions and will be expected to be present and work every day of camp. Details will be sent one week prior to camp.

CAMP:765

Half Day Option | \$39

613 M-F 12:40pm-3:30pm
Aug. 3 – Aug. 7 **MC - LH, 102**

612 M-F 9:30am-12:20pm
Aug. 3 – Aug. 7 **MC - LH, 102**

Full Day Option | \$69

611 M-F 9:30am-3:30pm
Aug. 3 – Aug. 7 **MC - LH, 103**

Movie Appreciation (Grades K-8)

Experience some of your favorite films, and maybe a few new ones in this class. Students will watch films ranging through film history comparing and contrasting various aspects of each film (all films G-PG rated).

CAMP:765 | \$29

610 M-F 3:40pm-5pm
Aug. 3 – Aug. 7 **MC - LH, 102**

WEEK 2: AUGUST 10-14 College for Kids

Watercolor World

Use watercolors to create bright, colorful sketches of landscapes, city scenes, and animals with pen line drawing for accents. Learn various techniques to make beautiful creations.

CFKD:705 | \$53

702 M-F 11am-12:20pm
Aug. 10 – Aug. 14 **Adrienne Rosen**
MC - SW, 102

Adventures in Cartooning (Grades 4-8)

This class is geared both for students who like to draw by hand as well as those who prefer to sketch on the computer. Each student will create either a four-panel comic strip or a page of comic book art. The course will cover the fundamentals of comics, including: framing, style, character, emotion, lettering, coloring, story and coming up with a name for your comic.

MC - SS, 107

Wild Things!

Join us for some creepy crawly adventures! In this hand-on class students will work with live animals including mammals, arachnids, insects, reptiles, and birds. Students will get to interact with each of the animals and learn about their natural history and how the animals are cared for in captivity. Students will learn about issues that affect local wildlife, wildlife rehabilitation in Missouri and about issues that affect the exotic animals in captivity as well as in the wild.

Re-Action Science 2.0

It is reloaded and retooled so get ready for Re-Action Science. We will start with some chemistry right from the kitchen. Then we will work with the wonderful world of magnets. Next, we will try to crack the code of the egg drop (hopefully without cracking anything else). And then we will go to the air with wet and wonderful water rockets. Be prepared to get wet and muddy so dress appropriately.

Aug. 10 – Aug. 14 **Joseph Higgs**
MC - SS, 106

3D Game Design (Grades 4-8)

Learn fundamental programming concepts in the context of creating animated movies and simple video games with an innovative 3D programming environment called Alice. Alice makes it easy to create an animation for an interactive game, or a video. In Alice, 3-D objects populate a virtual world and students create a program to animate the objects. By manipulating the objects in their virtual world, students gain experience with all the programming constructs typically taught in an introductory programming course.

Stop Motion Animation: Mini Movie Magic (Grades 4-8)

With stop motion animation create your own mini-movie, the tweet of the movie world and the hottest trend on the web. Use your creative talents to make movies, animation, music videos and more that you'll be proud to share with your friends and family. You will learn to use multimedia including pictures, video, voice, sound and music techniques to create mini-movie magic. More fun than a video game and you'll gain valuable skills for your future.

CFKD:714 | \$55

704 M-F 12:40pm-2pm
Aug. 10 – Aug. 14 **Jerry Bearden**
MC - SW, 110

Video Game Creation with Scratch (Grades 4-8)

Create your own video games, interactive stories, animations, music and art with Scratch! Scratch is a programming language created at MIT that makes it easy to make your own digital creations and even share them on the Web. As you create and share Scratch projects, you will learn important mathematical and computational ideas while also learning to think creatively, reason systematically and work collaboratively.

CFKD:714 | \$55

701 M-F 11am-12:20pm **Jerry Bearden**
Aug. 10 - Aug. 14 MC - SW, 110

Studio Photoshop (Grades 4-8)

Interested in graphic design, advertising, animation, film making, publishing or any of the visual arts? If so, digital imaging is important to you! In this computer class, you will learn the fundamentals of digital imaging. You will learn masking, cloning, extracting and the importance of resolution. You will create your own planet and starscape, induce the illusion of text on fire and master the fundamentals of multi-layered documents. We will use Adobe Photoshop software. Prerequisite: Student must have basic computer skills.

CFKD:714 | \$55

702 M-F 11am-12:20pm **Zak Zych**
Aug. 10 - Aug. 14 MC - HE, 231

Computer Animation: Flipbook Theatre (Grades 4-8)

Using your own artwork, make a 3-5 second movie. Using both hand-crafted and digital media, students will create a flip book and then a digital version in QuickTime format. Emphasis will be placed on animation as a means of personal expression, and on telling stories with a beginning, middle and end. Students will be encouraged to create their own stories and work in their own style, but must have the ability to draw, paint or photograph 30 to 50 sequential images. Prerequisite: Student must have basic computer skills. Please note the time difference for this class. There will be a 10-minute break from 2-2:10pm.

CFKD:714 | \$85

703 M-F 12:40pm-3:30pm **Zak Zych**
Aug. 10 - Aug. 14 MC - HE, 231

Chess: Introduction and Beyond (Grades K-8)

The basics of the game will be taught as well as the fundamental checkmating principles. Prerequisite: No prior chess experience necessary.

CFKD:727 | \$43

700 M-F 9:30am-10:50am **Gabriel Boyd**
Aug. 10 - Aug. 14 MC - HE, 123

703 M-F 2:10pm-3:30pm **Gabriel Boyd**
Aug. 10 - Aug. 14 MC - HE, 123

Chess Openings and More (Grades K-8)

Fundamental chess openings will be explained and analyzed as well as advanced, middle and end game analysis. Prerequisite: Must have had at least two College for Kids chess class with Gabriel Boyd in the past.

CFKD:727 | \$43

702 M-F 12:40pm-2pm **Gabriel Boyd**
Aug. 10 - Aug. 14 MC - HE, 123

Chess Introduction Phase II (Grades K-8)

Chess middle, end-game and tactics will be thoroughly explained. Prerequisite: Must have had at least one College for Kids chess class with Gabriel Boyd in the past.

CFKD:727 | \$43

701 M-F 11am-12:20pm **Gabriel Boyd**
Aug. 10 - Aug. 14 MC - HE, 123

Become a Human Calculator (Grades 4-8)

42x48=? 251-85=? 62/99=? What if your children could solve these problems instantly-in their head-faster than you can use a calculator! They will learn this and more in our brand new class, Becoming a Human Calculator! Amidst the fun of learning math-based magic, your child will learn rapid calculation techniques for addition, subtraction, multiplication, and division. For additional variety, they'll also enjoy math puzzles, math comedy, and math games. Each night they'll bring home new feats to show. In the last class, students will participate in a lightning calculation demonstration. Goals are to learn rapid calculation tricks, develop presentation skills and confidence, and to have fun. Maybe someone will ask, as one sibling did, "Did he swallow a calculator?"

CFKD:729 | \$55

701 M-F 9:30am-10:50am **MC - SW, 208**
Aug. 10 - Aug. 14

ADDra-Kid-Abra (Grades K-2)

Mind read the number a spectator is thinking of! Instantly add a column of 4-digit numbers! Make balls travel mysteriously from one hand to another! Learn these tricks and more in our brand new mathmagic class, ADDra-Kid-Abra! Students get their own magic case and new props to put in it each class. You may well get a nightly show! The tricks are math-based. So while students develop their presentation skills as they enjoy learning magic, they are also sharpening skills in addition, subtraction, measurement, counting, even/odd, and geometric shape recognition. The class concludes with students putting on a mathmagic show for their families.

CFKD:729 | \$55

700 M-F 12:40pm-2pm **MC - SW, 208**
Aug. 10 - Aug. 14

Music Writing (Grades 3-8)

Do you dabble with writing songs or change the lyrics to a tune? Then this class is for you! Learn the basics of writing music using the Finale program. Students will learn how to arrange short pieces and compose their own music.

CFKD:731 | \$54

700 M-F 12:40pm-2pm **Christina Springer**
Aug. 10 - Aug. 14 MC - HE, 112

Lego® Robotics (Grades 3-8)

Explore the next generation of Lego® NXT Robots! Learn how to program Lego® NXTs to interact with its environment using a variety of sensors. Learn how robotics develop innovation, problem solving skills, teamwork and creativity. Students will use robotics kits in class only — students WILL NOT keep the kits or take home robots. Information will be made available for students who would like to purchase kits on their own. Students are allowed to bring their own robot in from home. This class is not affiliated with or endorsed by LEGO® Group.

Junior Medical Camp

Ready to find out what medical science is really all about? Junior Medical Campers get clinical by learning CPR and first aid. Then they focus on biotechnology by performing real labs to test their blood type, solve crimes using DNA, dissect real animal specimens, create bacterial slides to examine under microscopes, use various medical equipment and implements and so much more! Explore the many career opportunities available in the medical field through hand-on activities, in-depth experiments and guest speakers. Campers will receive a lab coat and real stethoscope to keep!

Learn the Piano (Grades 3-8)

Students will learn basic theory and how to read easy basic piano music. Students may learn how to play basic scales and chords at the piano. Students will play individually and in a group during class. Daily practice is helpful to learning how to play or expand knowledge at the piano. Pianos are provided.

CAMP:737 | \$54

700 M-F 11am-12:20pm **Christina Springer**
Aug. 10 – Aug. 14 *MC - HE, 112*

Jazz Band (Grades 4-8)

Students will learn how to play a few Jazz Tunes and learn how to play in a group. Students will also learn the basics of improvisation and playing in a group. Students must know how to read basic music and have an understanding of how to play their instrument. It would be helpful if students own an electronic instrument tuner. Class will conclude with a performance for parents. Bring own instrument.

CAMP:737 | \$54

701 M-F 9:30am-10:50am **Christina Springer**
Aug. 10 – Aug. 14 *MC - HW, 102*

Advanced Rocketry (Grades 4-8)

Refine and advance your model rocketry skills as you learn how to safely build and launch a two-stage model rocket. Experiments related to model rocketry will be included. Bring a shoebox with a lid to class. NOTE: Students will work with sharp-edged tool for rocket construction. Prerequisite: Must have taken Build a Model Rocket through the College for Kids program.

CAMP:765 | \$59

700 M-F 9:30am-10:50am **Joseph Higgs**
Aug. 10 – Aug. 14 *MC - SS, 106*

Junior Counselors (Ages 12-14)

Ages 12-13-14 This is the most fun you'll ever have at a job! Counselors will fill out an actual job application and go through a real interview. Junior counselors will receive training and work during the College for Kids program. Junior counselors will work with the kids in the classroom assisting the instructors. Note: Junior counselors will be expected to attend all training sessions and will be expected to be present and work every day of camp. Details will be sent one week prior to camp.

General Information

A ten-day program for gifted and talented children grades K-8

Please Note Refund Policy

- Please read **General and Registration Information** pages thoroughly.
 - Feel free to make copies of this brochure if necessary.
 - Please note **Prerequisites for Attendance**.

The Programs

In 2015, both College for Kids and Kids on Campus-Meramec will run simultaneously for two weeks!

College for Kids – Meramec (CFKD) is offered by St. Louis Community College Continuing Education for gifted and talented elementary and middle school youth who have completed kindergarten through eighth grades. Courses offered are designed to challenge and advance a student's skills. Children must meet gifted qualifications to attend CFKD classes. The program is designed especially for students currently enrolled in a program for gifted children at their own schools, those who have consistently scored in the 95th percentile or above on standardized tests or whose IQs have been determined to be 125 or above on an individualized IQ test. **Please submit proof of giftedness with your enrollment form.** The following items may be submitted: A copy of the student's most recent standardized test results or the result of an individually administered IQ test or completion of the certification form (on application) signed by the student's teacher. If we have IQ scores on file, you do not need to resubmit the scores. Standardized test scores should be resubmitted yearly.

College for Kids students may attend either CFKD classes or Kids on Campus (CAMP) classes.

Kids on Campus – Meramec (CAMP) is an open-enrollment, enrichment program for youth who have completed kindergarten through eighth grades. No gifted certification is required to attend these classes.

Please note that all of the following information applies to both programs unless otherwise noted.

Where and when do classes meet?

Classes will meet August 3-7 and August 10-14 on the Meramec campus located at 11333 Big Bend Road, Kirkwood, MO 63122. Exact class times and dates are listed in the course listings. NOTE: Room assignments may change. Updated room assignments will be sent with the welcome letter prior to camp.

How long are classes?

Most classes are 1 hour and 20 minutes. The time slots are 9:30-10:50am, 11-12:20pm, 12:40-2pm, 2:10-3:30pm, 3:40-5pm, 9:30am-12:20pm and 12:40pm-3:30pm. There is a 20 minute gap between the 2nd and 3rd time slots to allow for a sack lunch. Please note some classes will be held over two time slots with a ten minute break.

How much do the classes cost?

CFKD and CAMP classes are generally \$37 per course plus material or additional fees, where applicable. In addition each child in the program will receive a College for Kids or Kids on Campus T-shirt. Please indicate preferred size on the enrollment form.

Is lunch included?

Any child is welcome to bring snacks or a sack lunch to eat between classes. There will be a structured 20 minute lunch-break in Lecture Hall 104 (LH-104) and Lecture Hall 103 (LH-103) between 12:20pm-12:40pm (between the 2nd and 3rd timeslots). Students will be required to carry their lunches with them throughout the day. There are several vending machines located throughout the campus but the cafeteria will be closed.

What if I need to withdraw my child? Will I receive a refund?

Students who register and must later withdraw must do so in writing and any refund given will be based upon the date of receipt of written withdrawal by the Continuing Education office. You will receive a refund if the withdrawal is on or before July 15, 2015. Because of the special nature of this program, full refunds will be permitted through July 15, 2015. No refunds will be permitted after this date, unless the college has cancelled a class.

How many students are in the classes?

In general, the maximum enrollment will be 16 students per class and the college reserves the right to cancel any class which does not have at least eight students. Those in canceled classes will be notified no later than one week prior to the first day of class. Students in canceled classes will receive a refund if no suitable class can be found.

How can I find other families attending, who live near us, for carpooling?

The college will prepare and distribute a carpool list by July 20, 2015, for those who have so indicated their interest on the enrollment form. Parents interested in carpooling are on their own to contact other families on the list. The college will assume no responsibility other than preparation of the list.

Safety and program guidelines for youth classes

All children under the age of 16, who are enrolled in programs through St. Louis Community College Continuing Education, must be accompanied to and signed in at the beginning of each program session by a responsible party. In addition, a responsible party must also meet the participant at the end of the session and sign them out. Appropriate behavior is expected. Students may be disenrolled for misbehavior.

Please, no course changes allowed after July 17th.

Registration Information

When does registration start?

(Please read answer carefully.)

Walk-in and telephone registration begins **Monday, April 6 at 8:30 a.m.** Please note that mail-in and Internet registrations **will not be accepted.**

How do I register my child?

In person:

Bring completed enrollment form with payment (check, cash or credit card), gifted certification and child's student ID "A" # to:

St. Louis Community College-Meramec
Continuing Education office
11333 Big Bend Road
St. Louis, MO 63122

The office is located in a residential-type building on the west end of the Meramec campus at 802 Couch Avenue next to Campus Police.

Office hours are 8:30 a.m.-4 p.m., Monday-Friday.

By telephone:

Call 314-984-7777 and charge fees to MasterCard, VISA, American Express or Discover. Have all the registration information on hand when registering over the phone.

Please note that classes fill fast. Have one or two alternate class choices per timeslot.

Is my child eligible for the College for Kids program?

All students must provide PROOF OF GIFTEDNESS in one of the following forms at time of registration:

- Copy of IQ test showing full scale IQ score of at least 125.
- Copy of most recent standardized test results showing scores of 95 percent or above in subject area for which registration is requested.
- Total battery of 95 percent or above or in school gifted program (proof required – see form on Enrollment Form).

Students in grades 1 and 2 in schools/districts which do not have testing procedures for those grades may use the Teacher Referral form indicating that the student consistently displays many of the characteristics outlined. Teacher Referral forms will not be accepted for students in grades 3-8 except for those registering for fine arts/drama classes.

Proof of giftedness must accompany your completed enrollment form to ensure your child's class placement.

Any student who has previously submitted IQ test scores does not need to resubmit this documentation.

Other Information

Outside work may be required for some courses. Courses are not applicable toward degrees and certificates offered by St. Louis Community College.

Please, no course changes allowed after July 17th.

Note: Enrollment forms that are incomplete or missing proof of giftedness will not be processed until completed forms have been received.

If you have questions, call the Continuing Education office at 314-984-7777.

Non-Discrimination/Accommodations Statement

St. Louis Community College is committed to non-discrimination and equal opportunities in its admissions, educational programs, activities, and employment regardless of race, color, creed, religion, sex, sexual orientation, national origin, ancestry, age, disability, genetic information, or status as a disabled or Vietnam-era veteran and shall take action necessary to ensure non-discrimination. Sexual harassment, including sexual violence, is also prohibited. For information or concerns related to discrimination or sexual harassment, contact William Woodward, Associate Vice Chancellor for Student Affairs, 314-539-5374.

If you have accommodation needs, please contact Anne Marie Schreiber, 314-984-7704, at least two working days prior to the event.
