### Soccer - Tiny Pros

Parents participate in their child's important first steps in their physical fitness. Kicking the ball in a given direction, running and moving the ball with your feet, stopping the ball without using your hands, shooting at the goal. These are the basic elements of soccer that we aim to teach children by leading them in various exercises and through fun games. If any of our Tiny Pros made it to be the next 'Beckham' we would be delighted, but our real goal is to instill our little team with a sense of confidence, coordination, friendship, and a love of the game. No class 11/28 and 11/29.
