Fall 2017

Albert Camus wrote, "Autumn is a second spring, when every leaf is a flower." I believe he was talking about the connectivity of the seasons, how they segue from one to the next, each having its own distinct purpose and well-defined characteristics. Personally, I look forward to the changes autumn brings. When September approaches, I find myself anticipating the things that I will do when the leaves change, the weather cools, and sweatshirts come out of storage. It feels like a reward for making it through the seasons that I don't look forward to quite as much.

Just as with the seasons, change is the one constant that all of us can anticipate in life and in the workplace. That has certainly been the case for PRCS over the past 50 years, and we don't have to go very far back to identify some major changes. It wasn't that long ago when we were still registering program participants by mail and phone until we launched WebTrac in 2004.

Throughout the tremendous growth and changes that PRCS, as well as Loudoun County, has experienced over the past 50 years, the one constant has been our loyal customers and dedicated staff. We remain committed to delivering the same quality of service started by our fellow staff in 1966, and equally committed to constantly seeking out new opportunities to provide Loudoun residents with innovative, comprehensive, customer-focused programs and services.

Sincerely,

Steve Torpy

Director, Loudoun County Department of Parks, Recreation and Community Services

(Ages 18-24 mos) We are all born with music inside of us -from the beating of our hearts and the melodies of our voices, to the intrinsic rhythm in our movements. This class engages the whole child. Kids will learn about melodies and rhythm by using their voices, bodies, percussion instruments and other props to engage their imaginations. This class is intended for the adult and the child to learn together interactively.
