Business Acumen

NEW Creative Problem Solving

The ability to solve problems quickly and effectively is a critical interpersonal skill well worth developing. Interpersonal and business relationships fail because of poor problem solving. Using the problem solving model in this course will enable you to be more successful. Find out how to recognize problems and deal with them more appropriately. You will develop techniques relevant for any organization or group context, that can also be easily adapted to work at an individual level. 1.6 CEU, \$195, Cathy Niven

ID: 41355 Online class – 10/5/15 – 10/30/15

Get Things Done

Research has proven that when people have the opportunity to do what they do best every day, the effect on the individual, team, and organizational performance is powerful. You will gain a strengths-based management approach which incorporates the latest research on engagement and workplace performance from the Gallup organization. Using the Clifton StrengthsFinder, learn how to be more successful by using the unique strengths and contributions of each team member to get more done at work and increase productivity, creativity and retention. 1.6 CEU, \$245, Jennifer Selke and Betsy Flanagan

ID: 41338 Online class – 9/8/15 – 10/2/15

The Asking Formula – see page 5

Negotiation: Get What You Want

Negotiation is a key skill for success in business and everyday life. Work with a pro to learn how to plan, implement and win in the bargaining process. Save time, grow your business network and gain confidence when dealing with even the shrewdest of deal-makers. Invest in these skills now and reap a lifetime of rewards. 1.6 CEU, \$195, Julia King Tamang

Dump The Data, Tell The Story

Every day it seems as though we sift and sort through data. The challenge is to convert and condense data into meaningful information that is compelling, illustrative, understandable and targeted to the needs of your audience. Learn the skills of synthesizing information into main points, and translating those points into stories that create meaning and produce results. You will see that data stories can be told through narratives, metaphors and visuals. You can bring your own data or work with in-class data sets. 0.4 CEU, \$99, Allison Broeren

ID: 45469 Wed, 10/28/15 12:30pm – 4:30pm RM: P1840

Who Should Attend: This workshop is ideal for executive assistants, marketing and sales professionals, project and financial managers, planners and analysts.

Lean and Six Sigma

NEW Lean Six Sigma

Lean Six Sigma is a set of tools used to solve problems and improve processes. This course will introduce you to the world of Lean thinking. You'll see how businesses operate more efficiently by eliminating defects in products and services, as well as other forms of waste: inventory, processing, waiting, motion, transportation and overproduction. Lean Six Sigma methods are powerful, flexible and save money for private and public organizations. Gain skills that are applicable for industrial and manufacturing processes as well as service industries. *No prerequisites required!* 1.6 CEU, \$245, Scott Follett

ID: 41344 Online – 11/2/15 – 11/27/15

Utilize Lean methodologies and advance Operational Excellence in your department and organization.

Refresh Your Grammar

We all know that proper grammar is essential for good writing and credibility, but who has time to give it the attention it deserves? We can all use a refresher to remind us of grammatical rules and what has changed. Improve your communication skills by reviewing and practicing grammar basics, eliminating common spelling errors, and understanding the use of punctuation. More importantly, you will develop strategies for writing effective sentences. This course utilizes real-life examples for the development of practical writing skills that are necessary in professional, technical, and business environments. 0.4 CEU, \$99, Jeannette Grace

Powerful Presentations & Effective Speaking Techniques

Nearly every job or business includes speaking, presentations, or sales. This course will allow you to master all three and accelerate success in every aspect of your career. Learn to effectively deliver a presentation to one person across the table, in front of a small group, for a large audience, or host a webinar online. 1.6 CEU, \$195, Bridget Brady

ID: 41357 Online class – 9/8/15 – 10/2/15

Webinars are a popular format for delivering information. With the right preparation and skills, they can be a powerful communication channel for your organization.

Enhance your PRESENTATION Skills and Visuals

Sometimes with little notice, we are asked to give a presentation and crafting an effective and memorable message is not always easy.

Presentation coaching is designed to boost your confidence and offer you the just-in-time feedback needed to enhance your presentation skills and visuals.

Call us at 952-358-8343 to learn more about individual coaching and to set an appointment.

Business Writing

Writing poorly in business can reflect negatively on the company you work for, and on you. It can also result in lost business. Strong business writing skills enable you to communicate clearly and effectively. To achieve this means knowing how to analyze your audience, getting organized, and practicing your skills. In this class you will learn these skills, as well as learning how to get your point across using appropriate tone, formatting, and language. 0.8 CEU, \$150, Jeannette Grace

Supervision and Management

Supervision and Management Certificate

This certificate provides new supervisors with the foundational skills needed for the job. Register for this certificate for \$400 (a savings of \$100).

Module 1: Making the Transition to Leadership

“What got you here won’t get you there.” When individual contributors are promoted to supervisor, it is often because they were technically excellent at their job. An effective supervisor learns how to complement that competence with the ability to lead and motivate a variety of people in a variety of situations. 0.4 CEU, \$125

ID: 45461 **Thur, 10/22/15** **8:30am – 12:30pm** **RM: P1840**

Module 2: Coaching Performance

Effective leaders understand that different situations and individuals call for different approaches. This workshop introduces coaching skills for guiding individuals and teams toward achieving successful results. Leaders learn how to recognize and approach each coaching opportunity as a catalyst for success—providing the spark to prompt people toward successful results. 0.4 CEU, \$125

ID: 45462 **Thur, 10/29/15** **8:30am – 12:30pm** **RM: P1840**

Module 3: Managing Performance Problems

Even the best coaches do not control how employees perform on the job. This course builds skills in the handling of chronic performance problems and misconduct. Learn how to document the problem, and explain what the employee must do to address it. Gain skills in discussing and imposing formal consequences while adhering to their organization’s disciplinary policies and procedures. 0.4 CEU, \$125

ID: 45463 **Thur, 11/5/15** **8:30am – 12:30pm** **RM: P1840**

Module 4: Developing Your Leadership Style

Throughout this series, supervisors have learned and practiced tools for setting clear expectations, having difficult conversations, developing strong relationships, and holding people accountable for performance. While everyone has the same tools available to them, every supervisor will still have their own voice and style. This final class will encourage supervisors to define the style that allows them to be effective and authentic. 0.4 CEU, \$125

ID: 45464 **Thur, 11/12/15** **8:30am – 12:30pm** **RM: P1840**

Julie Berg, President of HRD Consulting, is a professional workshop leader, coach and organization development consultant. She has over 20 years of experience across industries including healthcare, education, business services, engineering, manufacturing, technology, and non-profits.

“The course helped us think about the fact that everyone has different communication styles. If you are able to mirror or adapt to someone else’s style, you can be more effective.”

- Greg Hefferan, Sebastian Joe’s Store Manager

Navigating Change

Change leadership is a two-way street. While formal leaders have an obligation to communicate clearly and create an environment where change can flourish, every individual also shares in the responsibility to be adaptable and flexible. In this workshop, participants will learn the difference between change and transition, while also developing tools for communicating and managing the stress often related to change.

Stress Management

Stress itself isn't the enemy. It is our perception of stress that fuels our anxiety. Events happen every day. How we interpret those events can set the stage for how we feel and how we react to others. Reducing stress is as easy as understanding what stress is to you, and using that knowledge to restructure your thoughts. Gain specific techniques to turn stress into a stepping stone, not a stumbling block! 1.6 CEU, \$145, Meredith Brown

Agile & Scrum

There is a way to focus on the right things, in the right order, and at the right level of detail without sacrificing speed, quality, cost and people. The solution lies in becoming Agile. Agility results from proper focus. It's a lot like driving: you need to keep your eyes on the road, but not on every stone within it. You need to watch the turns ahead, but not the ones two states away.

Certified ScrumMaster

WIA Approved

If you have experience on development teams, or you're facing complex product/project development efforts, this class might be right for you. (It is recommended that you have some familiarity with Agile.) This interactive course is designed to leverage your knowledge, skills and experiences so that you can learn the practice of Scrum in the context of the work that you do. *Course fee includes the Scrum Study Guide (a \$50 value) and a two-year membership in the Scrum Alliance. Compression Planning: A Smarter Way to Work

In our highly networked economy, work has changed dramatically. We are inundated with data and expected to make decisions in record time. We are often assigned to ambiguous projects that require us to juggle the demands of multiple stakeholders and priorities, all of which can be stressful and often unproductive.

While understanding the fundamental nature of this change is important, the real challenge is to help individuals, teams and organizations find those methods and tools that will cut through complex problems and offer strategies to create more actionable solutions. Allowing us to work smarter, not harder.

Compression Planning™ (CP) is such a method. It provides a framework that enhances productivity and innovation. It offers specific tools to break down barriers, untangle problems, generate new ideas and implement actionable plans – visually, collaboratively and in real-time.

ADAPTABLE, EASY-TO-USE TOOLS

Compression Planning uses a creative brainstorming and storyboarding process designed to engage and focus people on finding new ways to solve challenges.

Leaders, project managers, designers, entrepreneurs, innovators, or anyone charged with implementing creative solutions can benefit from this highly adaptable, easy-to-use method.

Whether you are designing a new business model, defining partnerships and agreements, or integrating the right resources to realize a new opportunity – you can use CP to plan any scale project.

IMMEDIATE, USEFUL RESULTS

Over the years, Pat McNellis, Compression Planning Co-founder and Facilitator, has worked on more than 500 corporate “mega problems.” He shares that in any situation “you’ll see groups move quickly from talk to action as they create solutions that have energy and a stickiness that builds commitment and momentum.”

“With Compression Planning, you can devote a few hours of your day and see light at the end of the tunnel...”

–Marissa Dickinson

According to Pat, the beauty of CP lies in its simplicity and the freedom that comes from one of his favorite mantras “an imperfect action is better than no action.”

SUCCESS STORIES

This mantra only tells part of the story. The people who use the method sing its praises because of the focus on getting things done. Clear Brands President Brian Cubarney, says “Compression Planning has been by far the single biggest personal and professional catalyst in my 22-year career.”

Peter Hughes, Regional Vice President of Business Development and Marketing for Mayo Clinic Health Systems, has used Compression Planning for many years and has integrated the process into his work. He says, “Compression Planning really levels the playing field, and one of the things people like best about the process is it spans the gap for everyone. If you’re no-nonsense, you’ll like it for that reason. If you’re creative, you’ll like it because it allows you to be very creative and open to a lot of different directions.”

Peter has also introduced a number of people at Mayo to Compression Planning, including Marissa Dickinson, Physician Liaison. Marissa is particularly impressed with how it can accelerate project development. She said, “With Compression Planning, you can devote a few hours of your day and see light at the end of the tunnel. You come away with an action plan and a communication plan. And, you’re going to see things go from start to finish in a much quicker fashion.”

GET STARTED

Normandale is proud to be the home of the Minnesota Compression Planning Institute (MN-CPI). This fall, people at all stages of their careers and from all walks of life, will gather and practice CP together. The learners from this cohort will also have an opportunity to meet other MN-CPI alumni, creating a network of resources and shared learning.

Normandale also offers CP project consulting. If you would like to learn more, see page 7 or give us a call, and see how Compression Planning offers the tools to manage today’s toughest challenges by delivering creative solutions and meaningful progress – fast.

“You’ll see groups move quickly from talk to action as they create solutions that have energy and a stickiness that builds commitment and momentum.”

Programming

Web, digital media, software design and development, gaming, data analytics, and business intelligence all require at least an entry level understanding of programming, languages, and concepts.

Introduction to Programming

Explore key programming concepts with BASIC, a free Windows programming language and create simple stand-alone applications as well as a working computer-game application. A great start point to learn programming. **OL** 2.4 CEU, \$109, Richard Blum

Ruby on Rails

Ruby on Rails is a web applications development framework and a powerful programming language. You will learn how Ruby and Rails' work and learn the building blocks of Ruby: objects, variables, classes, modules and programs. You will learn to use the built-in classes and modules to build an application. **OL** 3.2 CEU, \$395

Ruby on Rails' simplicity and user-friendliness make it ideal for beginning programmers.

Java (2 Levels offered)

Java is one of the most widely used computer languages in the world, and simple to learn. Write your own programs and integrate input and output, calculations, decision making, and loops with Java and BlueJ, a graphical development environment designed especially for students. **OL** 2.4 CEU, \$109, Merrill Hall

C++

C++ is an approachable way to learn to program. Used as a general purpose programming language, it is commonly used for desktop application development and systems programming. **OL** 2.4 CEU, \$109, Jeffrey Kent

Introduction to Python

Python was created to provide a way to develop code that's easy to create and understand. This course will give you the tools to write simple scripts, full programs, or graphical user interfaces with Python. **OL** 2.4 CEU, \$109, Mike Orsega

GET STARTED HERE

Programming activity:	Try one of these:	Really want to stand out? Then add this:
Front-end, Client-side	HTML, CSS, JavaScript	CX (customer experience) knowledge
Back-end, Server-side	Python, Ruby, PHP, Java or .Net	Graphic design skills
Mobile/Apps	Objective-C or Java, HTML/CSS	Server-side programming knowledge
3D/Game	C/C++, OpenGL, Animation	Artistic/design skills
High-Performance	C/C++, Java	Math and quantitative analysis skills

JavaScript (2 Levels offered)

Build interactive features into your web pages by developing basic JavaScript and jQuery skills, which stack onto your knowledge of HTML and CSS. **OL** 2.4 CEU, \$109, Alan Simpson

Visual Basic (2 Levels offered)

Visual Basic is the most widely used programming language for creating Windows applications and is easy to learn. Develop Windows applications and richer features in this intermediate course. **OL** 2.4 CEU, \$109, Jeffrey Kent

C# (2 Levels offered)

C# incorporates the best features of Visual Basic, C++ and Java to create impressive applications. As a general purpose programming language, C# is commonly used for desktop application development and systems programming. You will build your own graphical user interface and work on real projects. **OL** 2.4 CEU, \$109, Mike Orsega

ASP.NET

Use ASP.NET to create polished and interactive web sites. ASP.NET allows you to develop powerful, interactive controls, style sheets, master pages and membership features like registration, log in, profiles and message forums. **OL** 2.4 CEU, \$109, Jeffrey Kent

Game Development

Learn the fundamentals of game development genres, platforms, and audiences as well as the tools and techniques to help you make better design decisions and achieve greater efficiencies as you develop your own games. Explore the various work roles in game development and how to pursue a career in the industry. **OL** 2.4 CEU, \$109, Edward Lavieri

Normandale Recognized as National Leader in Health Information Technology Training

Normandale selected as one of 20 national organizations to improve health and transform care through health information technology.

The U.S. Department of Health and Human Services through the Office of the National Coordinator for Health IT (ONC) recently awarded 20 federal grants to further advance healthcare reform goals, including much-needed up-skilling for healthcare workers and facilities in health IT related fields.

Up-Skilling our Healthcare Workers

In the next two years, this grant will ensure that over 6,000 healthcare workers across the country will receive training to support advanced utilization of health information technologies and data in a variety of settings, including team-based care environments, long-term care facilities, patient-centered medical homes, accountable care organizations, hospitals, and clinics.

Normandale and partner colleges and universities will develop highly targeted, practical content and learning services that will focus on the following health IT priorities: Care Coordination, Population Health Management, New Payment and Delivery Models, and Value-Based and Patient-Centered Care.

FREE HEALTH IT TRAINING FOR RURAL FACILITIES

Normandale is also a proud partner of the MENTOR Health IT program to train rural healthcare workers in health IT skills. This customized, fast-track program provides workers with a way to quickly learn new health IT skills and immediately apply them. Visit website to apply: www.MNHealthIT.com/mentor.html

Training tracks begin this fall:

- Health IT Trainer: Begins October 2015
- Health IT Analyst: Begins March 2016

Individualized Training Plans • Apprenticeships • Peer Learning Communities

In Good Company

Normandale will join these six institutions to transform healthcare through training and development:

- University of Alabama at Birmingham
- Bellevue College
- Columbia University
- Johns Hopkins University
- Oregon Health & Sciences University
- University of Texas Health Sciences

Moving to Health IT 3.0

Normandale has been heavily involved in the evolution of health IT training. The college lead the state through the initial ARRA funded Health IT Workforce training initiatives, which began in 2010 and established the Minnesota Health Information Technology (MNHIT) program. Normandale is also partnering with the Lac qui Parle Health Network to up-skill Minnesota rural healthcare workers through funding from the Department of Health and Human Services.

Sunny Ainley, Associate Dean, explains that in just five years, the need for health IT training has exploded. Normandale has trained more than 700 health professionals, in multiple work roles, designed over 600 hours of online curriculum and worked with more than 50 health care organizations. As the industry has moved through the eras of health IT 1.0 and 2.0, training has focused on implementing and effectively using electronic health records and systems. We are now challenged to leverage data, analytics and informatics to improve care design, delivery and outcomes.

“We have made great strides in the adoption and use of health IT,” said the National Coordinator for Health IT - Dr. Karen DeSalvo. “As we move beyond adoption to a learning health system where information is available when and where it matters most, it is important to ensure greater care coordination at the community level. These grants provide resources to meet this goal.”

Healthcare is now challenged to leverage data, analytics and informatics to improve care design, delivery and outcomes for patients.

The ACT Health IT (Accelerating Healthcare Transformation through Health IT) grant will begin coursework development immediately. Training is scheduled to begin July 2016 and will be open to individuals working in healthcare settings.

Be a Part of the Healthcare Transformation

We are currently looking for industry experts for a number of positions and roles – advisory boards, subject matter experts, and instructors. Contact us if you are interested in learning more about how your expertise can shape and inform health IT training and delivery.

ACT Health IT training will offer individualized training plans for each learner and will be targeted to specific occupations, additionally, training will be delivered in various formats to meet multiple learning preferences.

For more information, give us a call **952-358 8343** or visit www.MNHealthIT.com/act.html

health information technology

Health IT professionals are the go-to people who ensure technology is used in a way that improves patient care, quality, safety and cost-effectiveness. Normandale's MNHIT program offers high-demand, technical and leadership skills needed in this growing field.

Three ways to take advantage of MNHIT training:

1. Enroll in individual classes to meet your needs
2. Complete one or more of our mini certificates
3. Earn your professional certification in Health IT

MNHIT Basic Certificate

languages and culture

Russian

Whether you are planning to travel to Russia or are interested in the Russian language and culture, this course will help you learn to communicate in Russian in a fun and interactive way. You will learn to travel to and through Russia with ease and get to know the culture beyond the stereotypes. You will further develop your Russian language skills through peer-to-peer interaction and dialogue and learn about Russian traditions and holidays, and how to survive a night out on the town. 1.2 CEU, \$99, Olga Kedrowski

Level 1: ID: 45274	Tue, 9/22/15 – 10/27/15	6:30pm – 8:30pm	RM: P2808

Spanish

Our Beginning Spanish program is designed for beginners whose goal is to eventually become fluent. These classes help learners build a solid foundation of Spanish grammar and an extensive vocabulary to equip them for a continuing, in-depth study of the language. We offer six levels of Beginning Spanish. Visit our website to view our full schedule, or call us at 952-358-8343.

Beginning Spanish 1

This is the first course in our traditional Spanish series. Learn commonly used questions and answers for engaging in simple conversations, communicating numbers, dates and times, and basic vocabulary related to everyday language. By the end of the class, you will also be familiar with some regular and irregular present tense verbs. 1.2 CEU, \$129 (includes textbook for Beginning Spanish 1 - 4), LeAnn Taylor

ID: 45471

Wed, 9/23/15 – 10/28/15 6:30pm – 8:30pm RM: P1844

Beginning Spanish 2

This is the second of four courses in the Beginning Spanish sequence. You'll practice basic conversational skills using reflexive verbs and some verbs in the perfect and imperfect tenses. Direct and indirect object nouns will be introduced, as you add to your vocabulary and conversational skills. 1.2 CEU, \$99, LeAnn Taylor

ID: 45472

Wed, 11/4/15 – 12/9/15 6:30pm – 8:30pm RM: P1844

LeAnn Taylor has successfully taught Spanish to adults since 1994, and has been a valued instructor at Normandale since 2001. Her approach combines accelerated learning with building block language structures, ensuring that students come away with usable methods and opportunities to practice and apply their knowledge.
