Architecture of Downtown Grand Rapids... *Parts One, Two and Three*

We invent cities. We create streets and we construct buildings. Whether the structures are historic, brand new, a combination of both, or a glimpse into our future, they provide a creative portrayal of our collective story of our "place", our built environment. No one architectural style is more important than another...they are all invaluable pages in our city's scrapbook. Each building tells a story as we physically move through time. Part One includes buildings prior to Urban Renewal and Part Two is the 1960's forward and into our architectural future. There are other architectural jewels somewhere in between super old and "not yet". Part Three is an attempt to fill in the cracks...to connect the dots in our mind's streetscape.

Fri 4/26 10 a.m. - Part One
Fri 5/24 10 a.m. - Part Two
Fri 6/21 10 a.m. - Part Three

Please allow 90 minutes for walks. \$15 per participant

Heritage Hill Association 50th Anniversary

In the 1960s, urban renewal efforts in downtown Grand Rapids called for demolishing up to 75% of the Victorian "homes on the hill" or "The Hilltop" neighborhood, the city's oldest residential district. Resident protests and impassioned leadership led to the organization of the Heritage Hill Association in 1968. Court challenges stopped the loss of beautiful and invaluable historic neighborhood properties, thanks to the then-brand-new 1966 National Historic Preservation Act. The Association celebrated its 50th Anniversary in 2018. This presentation was created in honor of this momentous occasion. It visually and verbally traverses the stunning, tree-lined residential streets with bits of history and fascinating stories that introduce you to the special people who built the gracious homes on the hill and the ones who saved them.

In the grand city of Vienna, the baroque marvels of Schoenbrunn Palace, the summer retreat of the Habsburg dynasty, are revealed. See Prague's Hradcany Castle and its famous Golden Lane.

Call for rates and availability.

About The Play: In 1633, the residents of Oberammergau, Bavaria, Germany, vowed that if God spared them from the bubonic plague ravaging the region, they would produce a play thereafter for all time every 10 years depicting the life and death of Jesus. The death rate among adults rose from one person per 1000 per year in October 1632 to twenty in the month of March 1633. The adult death rate slowly subsided to one in the month of July 1633. The villagers believed they had been spared and they kept their part of the vow when the play was first performed in 1634.
