Which Level Should I Take?

Community Education classes are organized by levels, 1 through 5. If you are new to a subject or it has been a number of years since you last studied, start with classes followed by "1." If you've taken a Community Education class recently, proceed to the next level. Classes do not follow a standard curriculum, so a level 2 class at one site may differ from a level 2 course at another. If you have questions, call the class site directly—see page 19 for list of sites.
